

A Message from Matthew I. Paletz, CEO

Our Firm is announcing a refined vision and renewed purpose to better serve our clients. Founded in 1995 by Susan E. Paletz, we became well known for family law and landlord-tenant representation. As Paletz Law transitions into the next generation of service, we have directed our practice to focus entirely on an often overlooked segment of the real estate industry: landlords and property management companies.

Refined Vision

Our team has worked diligently over the years on behalf of our landlord clients, and they have come to rely on our customer service, prompt responsiveness and staunch advocacy. Our sole mission going forward is to continue to enforce the rights of landlords while protecting their real estate investments in Michigan, Ohio and throughout the country.

We remain committed to matching their entrepreneurial enthusiasm with our legal experience to increase the efficiency and profitability of their properties. We have invested in customized technology and software solutions

PALETZTRACK
Smart Technology for Landlords

which streamline the legal process to better assist the needs of our clients. We also created a mobile app for our online program PaletzTrack, which allows a property owner to monitor the status of their cases 24/7. It is this dedication to our clients that has – and will continue to – distinguish our Firm.

Defined Brand Identity

To celebrate our refined vision, we have a new brand identity: our new name and logo reflect our renewed focus. Paletz Law Firm, PC is now Paletz Law. The graphic “P” symbol in our new logo represents a building with a moon behind it, symbolizing us vigilantly watching over the legal interests of our clients’ assets. Our vision is to be nationally recognized as a leading advocate for landlords and property managers.

Same Aggressive Advocacy

We understand the diverse nature of our real estate clients and the varying types of properties they oversee, such as multi-family, affordable, and manufactured housing. Our skilled team of attorneys and experienced staff allow us to serve all different types of clients, from large multi-state operators and third-party management companies to small privately held organizations.

Please visit our new website for helpful resources and feel free to contact me to discuss any landlord-tenant issues.
